ABOUT

Skilled in web and Android app development with strong foundations in OOPS and core computer science concepts. Solved 180+ LeetCode DSA problems, demonstrating proven problem-solving abilities. Enhanced software optimization by 40% and increased user satisfaction by 30%. Quick learner, adaptable to new technologies, and dedicated to delivering high-quality work. Seeking opportunities to contribute to innovative projects in a collaborative environment.

PROFESSIONAL EXPERIENCE

Edunet Foundation, AI | ML Intern

Mar 2024 – Mar 2024

- Acquired proficiency in Python and its libraries, and gained knowledge of ML and DL algorithms.
- Learned Azure Clouding, enhancing my skills in cloud computing and deployment.
- Demonstrated strong professional ethics and collaborative skills, ensuring high-quality work and effective teamwork.

Prodigy Infotech, Web Developer Intern

Feb 2024 – Mar 2024

- Assigned to learn JS, HTML, and CSS to build foundational web development skills.
- Acquired expertise in API de-structuring and calling, enhancing integration capabilities.
- Proficient in React, with experience developing dynamic and single page application.

CodeLab Academy, Android Developer Intern

May 2023 – Jun 2023

- Designed the file structure of an application, ensuring organized and efficient development.
- Simplified database operations for rapid data filtering and management in Firebase.
- Implemented CRUD operations seamlessly integrated with the Android framework using Firebase.

SKILLS

Programing Language:

- Java | JavaScript | C# | C++

JavaScript Framework:

- Express.js

Tools & Platforms:

- SQL | GitHub | Firebase | Android Studio

Web Development:

- HTML | CSS | ReactJS | Bootstrap | Tailwind

Soft Skills:

- Teamwork | Problem-Solving | Time- Management

EDUCATION

Birla Vishwkarma Mahavidhyala, B.Tech(IT)

2022 – 2025 | Anand, India

CGPA: 6.94

Bhailalbhai and Bhikhabhai Institute of Technology, Diploma(IT)

2019 – 2022 | Anand, India

CGPA: 9.23

PROJECTS

CryptoBacker

- **Technologies Used:** HTML, Tailwind, ReactJS, MongoDB, Solidity, HardHat
- Developed the frontend for CryptoBacker, a crowdfunding platform on the Ethereum blockchain, focusing on intuitive user interface design and seamless user experience.
- Utilized ReactJS to implement responsive and dynamic features, enhancing usability and engagement on the platform.

Blog App

- **Technologies Used:** HTML, Tailwind, Flowbite, JavaScript, ReactJS, appwrite
- Developed a blog platform where users can write and view blogs, integrating TinyMCE notepad library for diverse font styling options.
- Implemented Appwrite for ensuring secure and efficient management of user-generated content.

Food Waste Management

- **Technologies Used:** Android, Java, Firebase, MaterialUI
- Built the application that supports real-time communication with features like user authentication, Location Tracking, Image Uploading.
- Leveraged Firebase for efficient data storage and retrieval, ensuring a smooth user experience.

ACHIVEMENTS & OTHER ACTIVITIES

- Successfully tackled over **180+** problems on platforms like LeetCode and CodeChef enhancing algorithmic understanding and comprehension.
- Ranked **518,837** globally out of **20M+** participants in LeetCode.
- Earned **50 Days** Badge of LeetCode 2024.
